

The Certified Installer Training Program is compliant with standards established for continuing education for system integrators and installers. Offering both in-person or online webinar options, these value-added courses demonstrate the importance of proper installation techniques and safety, and address efficient methods to reduce the risk of faulty installations. You will receive customized, hands-on sessions to fit your installation needs, and detailed takeaway resources that can be referred to again and again.

HOW DO I GET CERTIFIED?

COMPLETE THE FOLLOWING LEVELS TO RECEIVE YOUR CERTIFICATES.

GETTING TO KNOW THE BASICS

This level includes training on the three types of mounting applications (wall, ceiling, and floor), with a focus on how to safely and properly install wall and ceiling mounts.

FUNDAMENTALS OF DIGITAL SIGNAGE

This level includes training on the benefits of digital signage and the various applications it can be used in, with a focus on kiosks, digital menu boards, and video wall carts and stands.

ADVANCED DIGITAL SIGNAGE SOLUTIONS

This level includes training on the installation process of full service video wall mounts, and provides an overview of other digital signage solutions, such as multi-display ceiling mounts.

MASTERING OUTDOOR AUDIO VISUAL SOLUTIONS

This level includes training on the best practices for installation and set-up scenarios for outdoor audio visual solutions, with a focus on outdoor displays and TVs.

VIDEO WALL MOUNTING SYSTEMS FOR DIRECT VIEW LED DISPLAYS

This level includes training on direct view LED displays and video wall mounting systems, with a focus on the benefits of such technology and how to properly install a video wall from start to finish (pre-planning, site surveys, and best practices).

Craig Recchia
Sales Application Engineer,
Installer Instructor

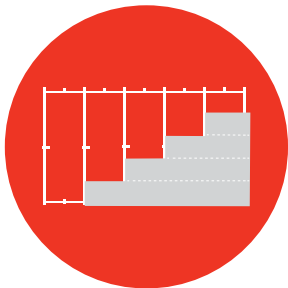

WE'VE ADDED A NEW COURSE!

Designed for system integrators and installers, this new level focuses on video wall mounting systems for direct view LED (dvLED) displays.

At the end of this training program, you will be able to...

- Understand & explain the features & benefits of dvLED displays
- Identify the features of dvLED video wall mounting systems
- Distinguish between flat, pull out, universal and dedicated dvLED mounts
- Understand & explain the preparation & installation procedure for dvLED mounting systems
